

## Using Your Horn

### Using Your Horn

Welcome to this **Perfect Driver** course. Throughout this course, we are going to look at the law, skills, techniques, and ideas to help you become a better, and safer driver.

In this lesson, we'll look at **Using Your Horn**.

### Using Your Horn

Let's take a closer look at  
**Using Your Horn.**

## Using Your Horn

### Using Your Horn

#### Your Horn

A car horn is located centrally on the steering wheel. Pressing the horn with the heel of your hand will sound a loud warning to people outside of your car.

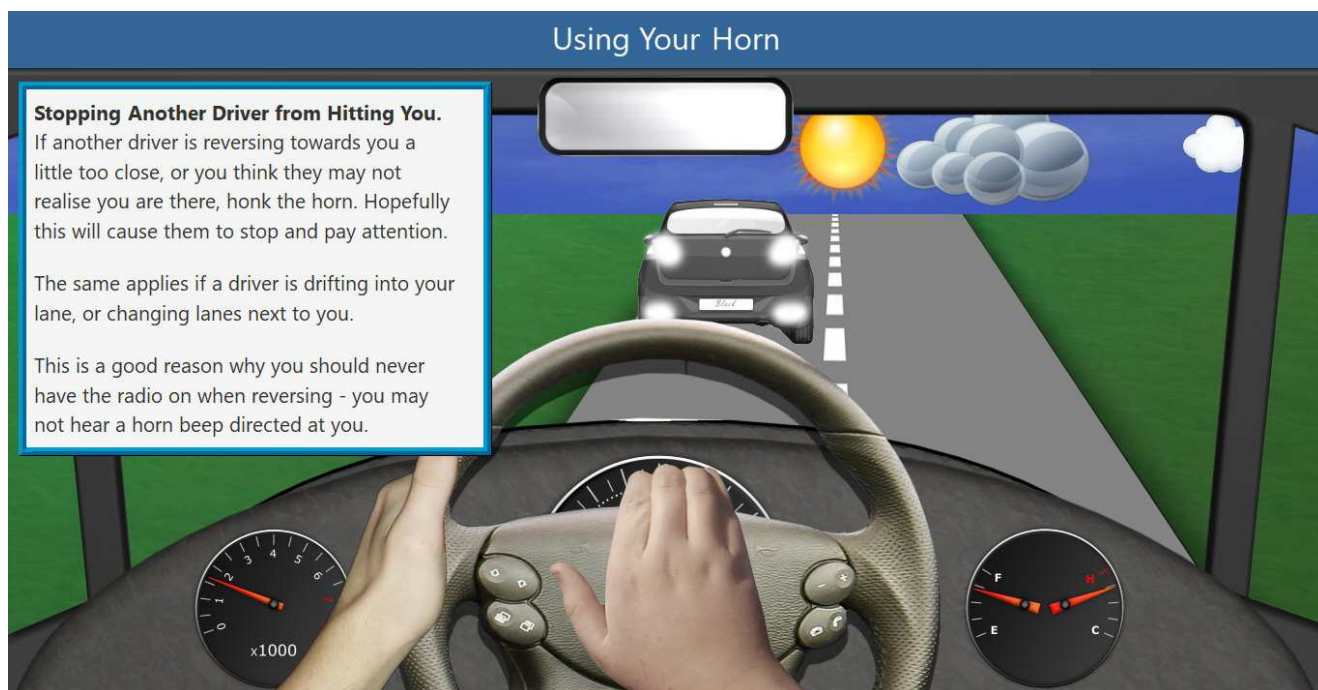

There are good reasons, and bad reasons, to use your horn. Even some techniques.

### Using Your Horn

## Using Your Horn

## Using Your Horn

## Using Your Horn

**Do not use the Horn for Slow Pedestrians or Drivers.** This is a little mean spirited. There may be a very good reason why another road user may be travelling slowly. Wait for a safe chance to move around slower road users.

### Using Your Horn

**Do not use the Horn to say Hello.** The car horn is designed to alert other road users and pedestrians of a possible problem.

Using the horn to say hello to friends may be confusing and could possibly cause an accident in and of itself.

### Using Your Horn

**Avoid Road Rage.** Don't use your horn to express anger. It should only ever be used for short beeps when and as required. It is not required *after* someone has done something wrong.

A long beep on the horn can be seen as especially provocative.

Using Your Horn

# SUMMARY

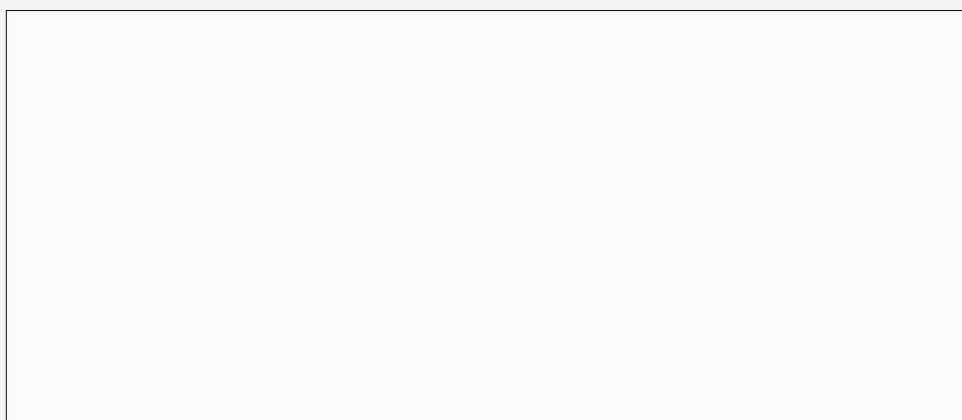

In this lesson, **Using Your Horn**, we discussed:

- Use your horn only if and when needed.
- Keep the length of horn blasts small.
- Do not use the horn to signal friends.
- Do not use the horn in traffic jams.
- Do not use the horn on slow pedestrians, bikes, or other cars.
