

The Car

The Car

Welcome to this **Perfect Driver** course. Throughout this course, we are going to look at the law, skills, techniques, and ideas to help you become a better, and safer driver.

In this lesson, we'll look at **The Car**.

The Car

Let's take a closer look at
The Car.

The Car

Getting Familiar with a Car

You are probably already familiar with the basics of how a car works - where the gearstick is, for example.

However, in the next few lessons, we'll take a closer look at the inside of your car. We'll look at the safety equipment, the dashboard and warning lights, controls, adjustments, and more, so that we can ensure you are familiar with what you need to do before, and when driving, a car.

The Car

Getting Familiar with a Car

We'll look at the difference between manual, automatic, and semi-automatic cars. We'll look at and explain what all those things on the dashboard are, and what they represent.

We'll also cover the proper use and safety of devices like seatbelts, airbags, indicators, the horn, and more.

The Car

Fuel

We discuss the various types of fuels that drive the cars of today, from petrol, to diesel, to hybrids. And where you have a choice, why you might choose one fuel type over another.

The Car

Other Safety Features

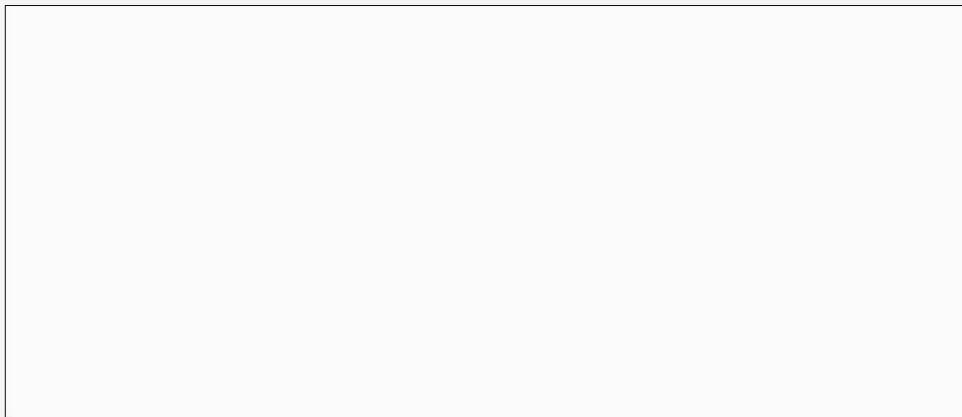

We'll also discuss other safety features found in some cars - anti-lock brakes, traction control, and active stability control. We'll also look at factors that affect how well a car can brake under various circumstances.

*So, strap yourself in -
you are about to get
started...*
